

Bench Mat

The **BenchMat** prevents the movement and loss of small components. Also use in the laboratory to cushion and stabilise fragile equipment.

Approved for use in all classes of clean rooms, including microelectronics, micro mechanics, semi-conductor, pharmaceutical, biotech and medical device.

Benefits

- Improves accuracy, precision and assembly time.
- No outgassing, Silicon or DOP.
- Non-Particulating - helmke drum test.
- Non-slip properties – Prevent the movement and loss of small items and components.
- Cushions and stabilises fragile laboratory equipment.
- Portable anti-static mat – Ideal to carry around in a serviceengineer's tool kit.
- Protects sensitive products by safely draining static discharge (10⁸ ohms resistance)
- Supplied complete with earthing stud.

Product Information

Width/Length/Thickness	W: 0.6m(2') x L: 0.45m(17.75") x T: 2.5mm(0.1") Or W: 0.6m(2') x L: 1.2m(40') x T: 2.5mm(0.1")
Co-Efficient of Friction	3.5 μ
Heat Resistance	working range 0 ^o c -50 ^o c
Colour	Grey or Black
Toxicity	Non-Toxic
ESD Features	10 ⁸ ohms resistance
Outgassing	www.dychem.com/purity
Chemical resistance	www.dychem.com/chem
Warranty	2 years
Expected Life	3-5 years
Specials	Available on request

ProtectaMat - is a loose laid mat designed to control foot and wheel borne contamination. The ProtectaMat is also available with a self-adhesive backing option for heavier wheeled traffic.

CleanZone - is a High Performance Contamination Control Zone designed to attract, collect and retain viable and non-viable contamination. Suitable for light wheeled traffic and heavier pedestrian flows. Available in a range of mat or floor covering options to suit your facilities needs.

WorkZone - is a heavy duty version of CleanZone designed for use where there are concerns about contamination and cross contamination from personnel, and the wheels of carts including pallet trucks, fork lifts, trolleys & vessels.

Cleaning - Dycem recommend their high performance range of cleaning products and equipment, designed to maximise product performance and life cycle.

Bench Mat - prevents movement of components and loss of small items. Improves accuracy, precision and assembly time and great for stabilising fragile laboratory equipment.

Non-slip products - Dycem Non-Slip products are non-sticky but amazingly grip to any surface without the use of an adhesive. They effectively cushion, stabilise and protect products and equipment. Dycem Non-Slip is available in a range of product options including reels, mats, self-adhesive panels and discs.
